

World-class manufacturing

Inovance's advanced global manufacturing facility is ISO 9001 certified and follows continuous improvement principles to achieve world-class standards. Production lines are highly automated, with the company making use of the latest smart manufacturing techniques and industrial IoT technologies in its own factories. Regular manufacturing assessments and upgrades make sure the most efficient processes are always in place, and rigorous inspection techniques ensure world-class quality.

Quality assurance

Inovance uses a uniquely rigorous engineering process that includes advanced quality assurance techniques. R&D teams carry out robust integrity testing of all technologies, and the company maintains a world-leading array of in-house testing facilities. These include XYZ vibration test rigs, walk-in climate chambers and a highly accelerated life test (HALT) chamber. Inovance also maintains research, EMC and LVD test labs which are certified and accredited by TÜV Rheinland and TÜV Süd in accordance with ISO/IEC 17025 and ISO 9001.

International Certifications

Inovance's products comply with all major international safety certifications and standards, such as CE, UL and EAC. The company works with UL listed test labs and various safety bodies for Type Test certifications, and also participates in UL's Client Test Data Program (CTDP). Meanwhile, Inovance's R&D teams work with leading international testing bodies such as TÜV Rheinland and TÜV SÜD for functional safety. The company is accredited under the Customer Testing Facility (CTF) program run by TÜV Rheinland, as well as the Acceptance of Client Testing (ACT) program run by TÜV Süd.

About Us

Since 2012, Inovance has been deeply committed to its global strategy. In 2024, the company experienced rapid growth in international markets, with annual overseas revenue exceeding RMB 2 billion, representing a year-over-year increase of over 90%.

Inovance has established six R&D centers and eleven subsidiaries and offices worldwide. The company has also built a robust service network, consisting of more than 650 authorized distributors and nearly 600 service centers, covering over 100 countries.

Through its “Industry Line Internationalization” and “Leverage Global Partners” strategies, Inovance has successfully brought its leading domestic products and solutions to the international market, continuously expanding its global influence.

Worldwide R&D network

Inovance invests heavily in R&D, enabling the company to continuously release a steady stream of new and innovative products. To ensure that all products meet all key global standards wherever possible, Inovance's R&D teams in Europe, India, and China, all work together seamlessly and virtually on engineering projects. Inovance calls this co-development, and the practice ensures that the best technology knowledge and solutions can be gathered from all around the business; and that they are always implemented and adapted in a way that meets the needs of local markets. The company's commitment to innovation is demonstrated through its headcount: over 17% of Inovance's entire global workforce is in R&D.
