Notice on the Product Transition from Inovance IT7000 International Series to ITS7000 International Series

To further enhance product performance and user experience, we will upgrade the existing IT7000 International Series products, which will be fully replaced by the new ITS7000 International Series products. We have decided to officially schedule the phase-out of the IT7000 Series HMI products and hereby announce the relevant arrangements as follows:

I. Product Upgrade Background

To continuously improve product performance and user experience, we have comprehensively upgraded the IT7000 International Series products and launched the new ITS7000 International Series products. This series features significant optimizations in hardware architecture, software functionality, display performance, and system reliability, with the following core advantages:

1. Upgraded Hardware Performance: Equipped with a high-performance multi-core processor, it delivers significantly enhanced data processing capabilities, faster response times, and smoother, more stable system operation;
2. Upgraded visual experience: Featuring a new-generation high-performance HD display, it delivers clearer and more refined image quality, true-to-life color reproduction, and significantly enhanced visual performance;
3. Optimized Software Interaction: The software interface has been redesigned based on Red Dot Design Award standards, making configuration more intuitive and aesthetically pleasing,

and programming operations more convenient, thereby boosting development efficiency;

4. **Comprehensively Enhanced Reliability:** With further improvements in craftsmanship, materials, and testing processes, product stability and durability are comprehensively enhanced, ensuring long-term reliable operation.

II. Overall Product Transition Strategy

1. **Pricing Strategy:** Effective from the date of this announcement, no new special pricing applications for IT7000 International Series products will be accepted;
2. **Lead Time Strategy:** Effective from the date of this announcement, the lead time for IT7000 International Series products is uniformly adjusted to 60 days;
3. **New Project Selection Strategy:** All new projects should directly select the ITS7000 International Series products for superior performance and experience;
4. **Technical Strategy:** No new feature development or customized requirement acceptance will be provided for IT7000 International Series products;
5. **Spare Parts Strategy:** After the official phase-out of the IT7000 International Series products, we will continue to provide spare parts supply support for 2 years to ensure the maintenance needs of customers' existing equipment are met.

III. Phase-out Schedule for IT7000 International Series Products

1. **Last Order Date:** December 30, 2026.

From now until this date, orders can be submitted normally; no new IT7000 Series orders will be accepted from December 30, 2026 onwards.

2. **Official Production End Date:** June 30, 2027. During the period from sales cessation to production cessation, only service spare parts will be produced;

3. **After-sales Service End Date:** June 30, 2029.

After-sales support will continue until June 30, 2029, ensuring the stable operation of customers' existing equipment.

Milestone	Full Name	Definition	Official Order Cessa- tion Date
EOM	End of Marketing	End of Mar- keting	2026/12/30
EOP	End of Production	End of Pro- duction	2027/6/30
EOS	End of Service	End of Ser- vice	2029/06/30

IV. Product Substitution Relationship

The standard product replacement mapping is as follows:

No.	Size	IT7000 Unit Code	Specification	ITS7000 Replacement Code	Specification
1	4.3 inch	01450254	IT7043E-F01- INT	01450626	ITS7043E-INT
2	7.0 inch	01450253	IT7070T-INT	01450564	ITS7070S-INT
				01450459	ITS7070S-G-INT
		01450158	IT7070E-INT	01450565	ITS7070E-INT
				01450471	ITS7070E-G-INT
		/	/	01450561	ITS7070EH-INT
		/	/	01450485	ITS7070EH-G-INT
		/	/	01450563	ITS7070SH-INT
		/	/	01450482	ITS7070SH-G-INT
3	10.1inch	01450157	IT7100E-INT	01450562	ITS7100P-INT
		/	/	01450499	ITS7100P-G-INT
4	15inch	01450159	IT7150E-INT	01450358	IT7150P-INT

No.	Size	IT7000 Unit Code	Specification	ITS7000 Replacement Code	Specification
5	15.6 inch			01450553	ITS7156E-INT

V. Contact Us

If you have any questions or need further assistance, please contact us via the following methods:

1. Technical Support Hotline: 4000-300124
2. Official Website: www.inovance.com
3. Local sales offices and corresponding sales managers.

Hereby announced.
